Zagreb, Croatia 05.octobar 2017.

Dear colleagues, dear trade union members,

Trade Union of Education, Media and Culture of Croatia (SOMK) supports the strike which will be organised by French unions organizing workers in the public services in Paris on 10 October 2017.

On behalf of our members, we hereby express our trade union and solidary support to your struggle for workers' rights and support the workers in public services in their struggle to achieve wage increase, new jobs and better working conditions.

Your reasons for strike are justified and I believe that they will motivate every worker to join you in your endeavours to protect workers' rights because the workers in European public services deserve higher wages!

Yours in solidarity,

Božica Žilić

SOMK
President
